U.N.-rated options available. A wide variety of our U.N.-rated tight head containers meet or exceed all of the testing and manufacturing regulations and standards set by the U.S. Department of Transportation. Contact a sales associate to explore which tight head containers can meet your needs.

*Other color options available upon request.

the **CYCLONE**

THE MULTI-LAYER CYCLONE ADVANTAGE
(NOT TO SCALE)

- Exterior Virgin Resin
- Core Recycled Resin
- Interior Virgin Resin

Precision mold and head technology delivers consistent wall thickness for strength and integrity throughout the entire container.

Multi-layer technology features a core layer of up to 80% closed-loop or post-consumer regrind encapsulated between two layers of 100% virgin resin.

Inner virgin-resin layer keeps contents inside from interacting with post-consumer resins.

Benefits of PriorityPour Tight Heads

- Quality.** All raw materials are FDA-approved resin, as well as food-grade.
 - BPA-free
 - Made from premium HDPE resin and meets U.N. Packing Groups II and III Standard
- Transportation safety.** On-site U.N. testing lab ensures that products are tested for secure, dependable shipment and storage of hazardous materials.
- Greater space utilization for storing and shipping.** Available in different shapes and sizes and features secure stacking with interlocking top and bottom designs.
- Label capability.** Sleeve label and pressure-sensitive options.
- Multi-use applications.** Food/flavoring, concentrates, janitorial, sanitation and chemical and agricultural industries, among others.
