12	<u>Thank You</u>

WHAT'S NEW?

Each order is stacked onto GMP-approved trays to maximize space utilization. Incorporating an extra tray splits the bundle, facilitating easier handling.

Our pack outs are being upgraded and designed to optimize efficiency, minimize environmental impact and further support our GreenLite™ sustainability initiatives.

These improvements will result in a greener, more efficient packaging solution that enhances your operations and better aligns with your values.

IT'S PART OF OUR **PRIORITY ONE COMMITMENT TO SERVICE:**

We continually work to add value and improve the services we provide; therefore, we are introducing new changes to
Maximize the Shipping Capacity of Every Truckload

Immediate Benefits:

- *More Canisters per Truck*
- *Reduced Freight*
- *Smaller Warehouse Footprint*
- *No More Poly Bag Waste*
- *Decreased order frequency*
- *Improved Stability*

PRIORITYONE

THANK
YOU

MAKE US YOUR GO-TO RESOURCE

Choose Priority Plastics to handle your immediate canisters and wipes solutions. We can ship quickly and easily all across the United States.

We offer a wide variety of neck sizes, finishes and capacities.

Your customers rely on you to deliver quality HDPE containers quickly and efficiently so their businesses keep running smoothly. We are here to help you build that trust and confidence. Click or scan one of the QR codes below to view more information about our canister and sizing availability.
